

# "Super Paul" DeYoung

## Charity Fishing Tournament

Saturday  
**NOVEMBER 21<sup>st</sup>, 2009**

My name is Paul and I am seven years old. I live with my Mommy, Daddy and my little brother Ethan. I was diagnosed with T-cell Advanced Lymphoblastic Leukemia in November 2007.

In October 2009, a few months before I was supposed to be done with my chemo treatment, my doctor discovered that my leukemia cells came back. I am going to get a bone marrow transplant at a hospital away from home.

I have a hat and cape, and when I wear it, people call me "Super Paul." I love to read, color, play sports, play video games, swim, ride my scooter and play with my little brother Ethan.

My family is thankful for the people who are caring for us in so many different ways, and for the prayers reaching far and wide for me to get better. Mostly though, we are thankful that I will be healthy before I know it.

**Lines in the Water  
at 6 a.m.**
